Stephanie – Thanks much for the edits. I will send these out to the group to see if there are comments from any of the other agencies, then will send everything out together as a package.

Thx, C.

Cassandra-

As I mentioned in my voicemail, we have a couple edits to Tech Meeting #4. We want to include some references that were brought up in the meeting but not specifically presented. We are hoping they can be included along with the ppt.

Let me know if you have any questions. I am hoping once you get any feedback from the fish agencies, that all 4 meeting summaries and the Action Items summ can be distributed to the tech and policy meeting participants. I appreciate all the work and your coordination!

Thanks—

Stephanie

Stephanie – You're welcome. I agree they will be helpful in tracking the work that needs to be captured in the recirculated document. With respect to a timeline, I had just pulled the March date from an estimate Laura had given during an earlier Policy meeting. We did have a follow-up Policy meeting yesterday and we will be providing a better estimate to you early next week. I hope that will be helpful in planning your time.

Have a great long weekend, C.

Cassandra-

Thank you for sending these- I think they reflect a strong record of what was discussed in the 4 technical meetings and I'm glad we have them.

One question- added to the bottom of the Tech#4 notes it says DWR will share draft language with EPA in March 2015. I don't remember if that was in regards to water quality data specifically or just ICF's revisions in general as they finish work on them. Let us know, and we will budget review time appropriately.

That's all I have. Thank you!

Stephanie

**Subject:** EPA technical meeting #4 action items

Stephanie, Erin and Tim – Attached are the draft meeting notes/action items from Monday's meeting. I'm also attaching a compilation of all the action items from the prior meetings. Please let me know if you have any questions and/or comments on either document.

Thanks, C.
